

## GREAT PRAISE GIVEN SOCIETIES BY COOLIDGE

"Strong Reliance of Ordered Gov-  
ernment, According to Public  
Law," He Tells De-  
legates at Capital

## SOON CLEARS DESK

President Gets Rid of Accumulat-  
ed Business—Holds Cabinet  
Meeting—Plans No  
Speaking Tour

Washington, Aug. 29.—Lauding  
the purposes of fraternalism, Presi-  
dent Coolidge today told delegates to  
the National Fraternal Congress of  
America in convention here that true  
fraternities were "strong reliances of  
ordered government, according to the  
public law."

Mr. Coolidge in his address, deliv-  
ered from the south portico of the  
White House, did not mention by  
name any fraternal order or secret  
society, nor did he touch directly on  
politics or campaign issues.

Outlining the "honesty virtues"—  
industry, thrift, loyalty, common  
sense, faith, and the golden rule—the  
President said he endorsed fraternalism  
because that spirit tended "to  
translate these ideals into daily life  
and action."

Speaking Tour Not Planned.

Mr. Coolidge wrote most of the  
address during his stay at Plymouth,  
Vt., and it dealt at length on his  
views of the "honesty virtues," as he  
described them.

Going to his desk immediately af-  
ter an early breakfast which was  
served when he arrived from the  
train this morning after his vacation in  
Vermont, the President put in a  
busy day and tonight the desk was  
clear.

The usual Friday cabinet meeting  
was held, the various cabinet mem-  
bers who have been away during the  
summer joined with the chief execu-  
tive in an hour's session in picking  
up the thread of business again.  
Nothing special was considered, it  
was said.

It was said the President has no  
plans for a speaking tour during the  
campaign.

## CHICAGO HEARING

**COSTS \$250,000**

**State and Defense in Leopold-  
Loeb Hearing Each Spend  
About \$50,000**

Chicago, Aug. 29.—The cost of  
defending between hanging or im-  
prisonment for Nathan F. Leopold,  
Jr., and Richard Loeb, for kidnap-  
ping and murdering Robert Franks  
will amount to a quarter of a million  
dollars, according to a compilation, of  
estimated by state and defense.

Not all bills are in, but Lawrence  
Cuneo, secretary to Robert E. Crowe,  
state attorney, estimated the total  
would be "between \$20,000 and \$80,  
000." The defense spent another  
\$20,000, according to Clarence S.  
Harper, chief of defense counsel,  
with attorney fees yet to be fixed.

The salary of Judge John R. Caverly,  
who has the case under advisement  
until September 10, was figured in  
the state's expense, as was that of  
Mr. Crowe and his assistants. That  
totaled \$5,500. Stenography cost  
\$2,000. A litigants fees are estimated  
\$2,000. Litigants fees are estimated

Mr. Cuneo and his associates  
agreed to have their fees fixed by a  
committee of the Chicago Bar as-  
sociation, which has not acted.

Judge Caverly was in his court  
room for a brief time today to dis-  
charge a grand jury, his last of  
that as chief Justice of the criminal  
court of Cook county. He will  
remain here a few days more per-  
mitting the approximately 2,000 pages of  
the record of the hearing, and then  
will return to prepare his decision.

Albion, Aug. 29.—The first re-

was made today when Deputy Motor

of Schenectady, revoked after an  
investigation of the case by Inspector  
James E. Connor, assigned to Schenec-

## Civil War Seems Certain in China Unless Lu Yung-Hsiang Voluntarily Quits Shanghai

Opposing Factions Concentrate Forces, Despite Efforts Being  
Made by Banking and Commercial Interests of City to  
Bring Leaders Together to Discuss Peace Terms.

London, Aug. 29.—Civil war be-  
tween the provinces of Chekiang and  
Kiangsu, with Marshal Chang Tso-  
Lin, General Wu Pei-Fu, and Dr.  
Sun Yat Sen in the background  
ready to aid and encourage the war-  
ring factions of Chi Shih-Yuan and  
Lu Yung-Hsiang, seems inevitable  
unless General Lu Yung-Hsiang vol-  
untarily gives up control of the  
Shanghai district, according to a  
Reuter dispatch from Shanghai.

British, American, and Japanese  
war ships are standing off Shanghai  
awaiting eventualities.

Weather Favors Troop Movements.

Shanghai, Aug. 29.—Despite ef-  
forts being made by the Chinese  
banking and commercial interests of  
Shanghai to bring opposing leaders  
together to discuss terms of peace, all  
China tonight was awaiting re-  
ports of the outbreak of actual fighting  
in the area where Chi Shih-Yuan  
and Lu Yung-Hsiang are concentrat-  
ing their forces.

Recent heavy rains in that vicinity  
which have hampered troop move-  
ments, have been succeeded by fair  
weather, which is expected to speed  
developments. The troops now occupy

## GASOLINE EXPLODES; EIGHT PERSONS DEAD

Five Others May Die—Three Boys,  
Playing in Street, Are  
Among Victims

Pittsburgh, Aug. 29.—An explo-  
sion of gasoline late today in a  
garage of the Peoples Natural Gas  
company, took a toll of eight lives,  
three of them boys, caused probable  
fatal injury to five persons, and less  
serious injuries to seven others. A  
part of the Peoples Natural Gas build-  
ing was wrecked and adjoining build-  
ings were shaken by the blast. The  
property damage was estimated at  
\$10,000.

The explosion occurred when a 1,-  
500-gallon tank of gasoline was be-  
ing drained into the storage tank at  
the garage. Four automobiles in the  
garage and six others standing in the  
street were destroyed by fire which  
followed the blast. Flames shot  
through windows and doorways  
and the building from the truck which  
had the gasoline tank into the garage.  
Officials of the company de-  
clared they could assign no cause for  
the blast.

The dead are: John Messina, 8;  
Albert Acciari, 10; Paty DeGrasse,  
Patrick Kane; James Montgomery, 7;  
Edward Burnish; Francis Brown,  
and Harry Miller. The boys were play-  
ing in the street near the garage.

The majority of those seriously in-  
jured were standing near the garage.  
The clothing was burned from some  
of them and they were huddled some  
distance by the concussion. Automobiles  
were commandeered by the po-  
lice to remove the injured to hos-  
pitals.

About 25 persons were in the build-  
ing at the time, the majority of them  
being girls. Three young women were  
among those injured.

## HEROIC WORK SAVES FLYERS' GAS SUPPLY

Three Men Battle in Icy Waters  
During 60 Mile Gale to  
Rescue Drums

(By the Associated Press)

Aboard the U. S. S. Richmond at  
the Tidle, Labrador, Aug. 29.—The  
heroism of Lieutenant George N.  
Harris, naval reserve, in charge of fuel  
and supplies at Indian Harbor, and  
Seamen Joseph Bowd and William  
Cullin of the destroyer Lawrence, in  
rescuing 18 drums of the fuel after  
falling in icy water up to their necks  
during the 60-mile gale Wednesday  
night, has saved the flight of the  
American army world aviators from  
immediate postponement.

The story was related today by  
Lieutenant Neville on coming aboard  
the Richmond after 16 hours of vig-  
ilance on duty ashore. Neville's camp  
was inundated during the storm and  
the drums, weighing 450 pounds each  
and which were afloat near shore,  
broke loose and began pounding on  
the rocks. The men tried to recapture  
the drums, but their boat capsized  
in the evening until midnight and  
finally lashed the drums together  
and dragged them to the beach.

The men remained awake during  
the rest of the night, soaked in the water,  
but at dawn they removed their  
clothing and refreshed each other by  
means of alcohol rubdowns.

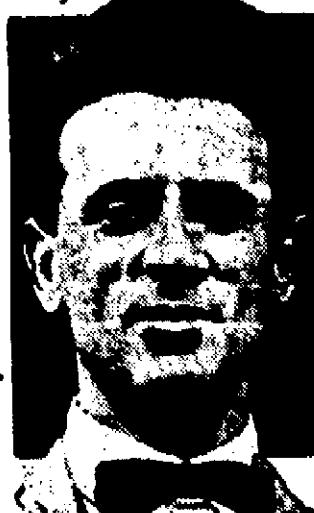

Had the drums of fuel not been  
recaptured the flyers on their arrival  
at here would have been without sup-  
plies, the nearest fuel being at  
Hawke's Bay, Newfoundland.

## BOY, 9, KILLED WHEN HE JUMPS IN FRONT OF AUTO

Scranton, Aug. 29.—Darting from  
behind a parked vehicle in the path  
of an oncoming car, Walter Knutty, 9,  
was fatally injured today and died  
within ten minutes after being ad-  
mitted to St. Joseph's Hospital. The  
death is the second of his kind here  
within two weeks. Max Jane Dwyer,  
also 9, had been killed when she ran  
in front of an automobile on August  
16. The automobile which started in  
today's accident was driven by Frank  
T. Miller, 16, son of former Commis-  
sioner of Public Safety Miller here.

Her sick boy died with injuries, her death stopped by lifeboat, her part  
body snatched in and her cabin flooded, the White Star liner Arabic  
dropped into port after ploughing through a three-day hurricane in North  
Atlantic waters. Fifty two of her passengers and crew were under med-  
ical attention when she docked in New York. Several had to be removed  
to hospital. Here may be seen some of the scenes of the gale wrecks with  
the boat. Notice how the sides of the lifeboats are covered in.

## Rescued

Here is Lieutenant Locatelli, the Italian  
airman, who, with his three compa-  
nions, was rescued by the Ameri-  
can cruiser Richmond after tossing  
about for more than 80 hours in his  
disabled seaplane in the rough North  
Atlantic waters. Locatelli, who had  
obtained permission to accompany the  
American round-the-world flyers  
on their trip across the Atlantic, was  
forced down between Reykjavik and  
Frederickstad, Iceland.

## G. O. P. Will Employ Its Best Minds in Aiding Agriculture

Only Promise of Republicans, Declares Dawes at Lincoln  
Address—Whoever Says He Will Do More Than This  
"Is Entering Into Contract Which Cannot Be Filled"  
He Continues.

## Various Problems Considered

Increased Taxes and Acreage Over Pre-War Years and  
Possibilities of Extension of Cooperative Marketing  
System Discussed—Elaborates on Commission Proposal.

(By the Associated Press)

Lincoln, Neb., Aug. 29.—Removal  
of the agricultural problems from  
politics and its solution by an impar-  
tial, non-partisan, competent commis-  
sion under the same methods of pro-  
cedure which ended the European  
reparations tangle, was advocated here  
tonight by Charles W. G. Dawes, Repub-  
lican candidate for vice president.

Mr. Dawes, speaking to an audience  
in the University of Nebraska  
Memorial stadium, which included  
many old friends and neighbors who  
had given him an enthusiastic wel-  
come earlier in the day, declared the  
European situation in industry at  
the inception of the work of the ex-  
pert committee on reparations. So  
great was the necessity for settlement  
that the world war had been the  
cause for the depression in agricultur-  
economy.

"The recent situation in the Ameri-  
can agricultural industry considered  
by itself, is somewhat analogous to  
the European situation in industry at  
the inception of the work of the ex-  
pert committee on reparations. So  
great was the necessity for settle-  
ment that the world war had been  
the cause for the depression in agricultur-  
economy.

"Even an unworkable plan, adopted  
unanimously, at least might have  
provided the basis of a temporary eco-  
nomic peace. But if, influenced by  
nationalistic or political considera-  
tion, there had been drawn an unworkable  
plan, because that was the easiest—  
because on its basis the nationalistic  
demagogues of the different coun-  
tries would have been placated—the  
peace upon which Europe is about to  
enter would have been temporary, and  
the chaos which would have come  
as a result of the inevitable failure  
of such a plan probably would have  
marked the beginning of a new dark  
age for that continent and its civili-  
zation.

"We make but one promise—that  
the Republican party, utilizing the  
best minds, and those by training best  
fitted for the task, will bend its every  
energy to the study of our agricultur-  
al problem to the end that through  
legislation or other means, its solution  
may be accomplished", Mr. Dawes asserted.  
"Whoever promises more than this is entering into a contract  
which cannot be filled."

The Republican nominee devoted  
the major portion of his address, de-  
livered here in the heart of the agri-  
cultural middle west, to the agricultur-  
al question, taking up the causes for  
the recent depression in farm prices.  
His speech was delivered in the  
hope that the agricultural question  
would be removed from politics.

Mr. Dawes asserted that the agricultural  
problem is the most serious and  
difficult in the country.

"WHIP" IN CLUBS

DEPENS LARGELY ON STRENGTH OF PLAYERS WRISTS. WITH WOODEN WHIP YOU WILL HELP BUT USE A STIFF SHAFT IF YOUR WRISTS ARE STRONG.

What is the advantage or disadvantage of having "whip" in the club shaft?

Answered by BOB McDONALD

Winner of the Metropolitan Open championship, 1921 and 1923. One of the longest drivers in the game though using only a 15½ ounce driver.

"Whip" in a wooden club depends largely on the strength of a player's hands and wrists. If the player's hands are weak a little whip will help, but if the player's hands are strong a much stiffer shaft can be used.

## JAILED AFTER TWO YEARS

Michael Vaughan Arrested for Theft  
From Uncle of Late Name.

Cherry Valley, Aug. 22.—On the 10th of August, 1922, Mr. and Mrs. Michael Vaughan of Cherry Valley, discovered that some one had entered their bedroom and stolen from there several valuable diamonds, a gold watch, a suit of clothes and several other articles of jewelry. Suspicion was at once cast upon a nephew of same name, who had been in their employ for several months, but had left very unexpectedly just a few days before. Sergeant J. L. Cunningham of Cooperstown was called in the case, made a careful examination of the premises, secured the statement of the Vaughans and was soon convinced that the bedroom had been entered through the window by means of a ladder. Marks where the ladder had rested on the ground were plainly visible and after careful search the ladder was found hidden in the long grass near the house.

The hired man was tracked as far as Albany, where all trace of him was lost. Recently he returned to this county and was employed in the vicinity of Cooperstown. A warrant issued by Justice of the Peace Monroe Dingman of Cherry Valley was delivered to Sergeant Cunningham, who, in company with Trooper Devine, and Deputy Sheriff Charles T. Cooke apprehended the accused and brought him to Cherry Valley Monday afternoon for a hearing. However, Sergeant Cunningham had woven such a strong case of circumstances against the prisoner that when he was confronted with the facts, he confessed and made a written statement of the theft and what he had done with the stolen property. The prisoner is now

in the Otsego county jail waiting to have his case disposed of at the next term of supreme court. Much credit is due Sergeant Cunningham for securing the confession and bringing to justice a criminal who thought that his crime had been forgotten.

Pixley, superintendent of water works. Walnut street is now closed as that is the first to receive this much needed extension.

## Supervised Games Very Popular.

The result of supervised games at the community playground is most satisfactory. The Village Improvement Society engaged Miss Gladys Copley for the four Wednesday afternoons of August from 2-5. The first afternoon forty-six children enjoyed the games; the number increased later to seventy. The children were very enthusiastic and happy, and Miss Copley says she enjoyed the afternoons and was sorry the work had to close because of school work.

The games were folk dances, singing games, base and basket ball, tennis, etc. She was assisted by Mrs. J. S. Seacord, Mrs. Glen Whitaker, Miss Mae Jones, and Miss Dora Engel.

F. T. Sherman laid out the basket ball court. The courtesy of the instructors, and the generosity of the Village Improvement Society, and everybody, who assisted in this work is certainly appreciated by parents and children, and by citizens generally. In all probability the success of this season will be realized so much that personal contributions will help the Village Improvement Society to continue the work next summer through the entire vacation.

Miss Gladys Copley goes to Binghamton Sunday, to attend the institute for teachers of that city, and to take up her work as physical instructor in the Binghamton Central High school.

The juices of apples, oranges and pears—naturalized and combined with tonics—are made into small tablets called "Fruit-atives" which have proven the marvels of the medical world for many diseases. For instance, Mr. James A. Shill, 50 Oak Hill Ave., Wethersfield, Conn., says: "I recommend "Fruit-atives" to anyone suffering from chronic Consumption. Having suffered for ten years, and receiving little relief from specialists, I at last have been helped by your good tablets".

## THE CHILD AND THE SCHOOL

Readers of The Star have no doubt noted the large advertisements which as proper prelude to the opening of the schools of the city next week, which have from day to day been printed in these columns. These advertisements, which it has no doubt also been noted, have been published under the auspices of the Rotary Club of Oneonta, and they have been sturdy, practical, sensible appeals to the boys and girls of the city, to parents, employees and citizens generally. Read in sequence they present convincing statements as to the value of High school and collegiate education, and most forcible arguments as to the duty of obtaining such education.

This duty, it should be noted, is not merely incumbent on child, parent, or employer. It is incumbent on the child to obtain the best education possible if he would properly outfit himself for the duties of life. It is incumbent on the employer if he would have his employee equipped as best he may be for the work in which he is engaged. It is incumbent on the parent if he fully understands what his obligation is to his own flesh and blood. And it is incumbent also upon the community as a whole to know that the opportunities which the child should have in way of education are provided.

It has always been the custom to distinguish between parent and guardian, in that under certain conditions only, the latter acted in the place of the former. A better distinction may be made and a clearer idea of obligation reached if one should say that, while the parent owes a definite duty to the child, and one which cannot be neglected, the community, state and nation are collectively in a broad sense the child's guardian. By these is his health looked after, his morals safeguarded, his education provided, not sole agencies but along with those more intimate ones of the home. Moreover, it is the government which in the end should be most directly concerned, since it on the quality of citizenship which now is developed that the welfare of the nation in later generations will depend.

With these things in mind, the Rotary Club of Oneonta has performed excellent public service in causing to be printed, at the opening of the school year those general appeals which began on August 19 and have continued to the press at time in the columns of The Star. They are not argumentative, rather they are plain statements of fact regarding what is unquestionably the most important thing relating to the mental growth and physical and moral welfare of the child. They are not sold from any point of view but rather a generous hearted appeal for the betterment of coming generations. They are such statements as appeal to a broader understanding of what the parent, community and nation owe to the child, and what the child owes to himself.

If you have not already done so, read the several articles which have appeared in The Star, and make in each instance a direct and searching personal application. These matters of common obligation, impelling through scholastic effort to higher attainments, cannot be too strongly enforced; and the Rotary Club does well in presenting them so clearly.

## PRICES AND TIMES

Woolen goods announced for the spring market are lower. They average nearly 10 per cent below the prices of one year ago and a little below those of six months ago, in spite of the high cost of raw wool.

News of this kind is regarded with gloom by many business men, and with pleasure by the consuming public. There is no obvious reason why anyone should be pessimistic about it.

Fries in this industry, as in others, are probably settling down to where they ought to be. Fries stabilized at the right level are sure to start a stronger demand for goods — which is what the manufacturers of woolen goods are aiming at. Prices kept at the right level are sure to result in a steady demand right along, profitable alike to maker, dealer and consumer.

There is no fear of a general slump from present levels in American business, but there is, and ought to be, an expectation that some prices that needed adjusting will be adjusted where they belong before business takes up a steady march again. There may have to be some readjustments of wages, too, though that may be avoided by greater production in the industries where wages are abnormally high.

On the whole, the outlook for the future is neither frenzied boom nor deadly slump, but a gradual swelling of the volume of business and a strong, long-continued period of everybody being busy at fair wages and profits. That is a better outlook than the old alternation of transient ups and downs.

## WHAT THE PAPERS SAY

**Publishing the Banns.**  
Georgia has gone a step further than most states are as yet ready to go in a law, signed by the governor this week, requiring the publication of the banns for five days prior to the issuance of a marriage license. Delaware does not permit the marriage ceremony until five days after the license has been granted.—Philadelphia Bulletin.

## That Celestial Visitor.

Mary came within less than 35,000 miles of the earth and now is going away again. The astronomers may have learned much by observing the visitor, but, if so, it is of a scientific rather than of a practical nature. Such events are of interest to those who might peer into the heavens through a telescope, but are of far less importance to the average person whose interests necessarily are terrestrial.—Pittsburgh Gazette-Times.

## The Bankrupt Would Borrow.

The Russian state owes the British nation £50,000,000 and six years' interest on that amount, which was advanced during the war. It also owes compensation for the loans made to Russia before the war to develop Russian industries and railways, and the very large amount of British capital invested in business and manufacture in Russia, every penny of which has been stolen by the Soviets. The total liability under these heads is not less than £1,000,000,000.—London Daily Mail.

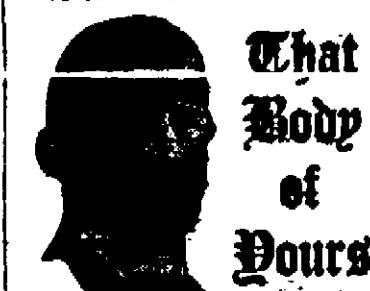

## Ludendorff's Battalion of Death.

Welman, rich in memories of Goethe and Schiller, now has a new title to fame. Here ten thousand uniformed Fascist storm troops have pledged themselves to follow Ludendorff "to the death." They have sworn a solemn oath to this effect. It may be doubted if they have to keep it. Evans have shown that Ludendorff is not an enemy of whom the German government has much reason to be afraid. His former attempt to head a revolution sputtered like a firecracker, and then went out.—Philadelphia Inquirer.

## America Founded by Idealists.

The men and women who first came to these shores were largely idealists. This nation was conceived in the minds of idealists. The outstanding events—the turning points of its history—were prompted by idealists, and each of these several events carried a highly idealistic message to the nations of the world. These are broad generalities, but they are true.

These men and women of early America, who built their little cabins in some remote forest clearing in the very lap of generous Mother America, and who reared their children in the fear of God and in respect for the law in the midst of the inspiring grandeur of primeval nature—like all adventurers into the material or spiritual unknown—were storing unconsciously in their hearts great funds of idealism unto the day of crisis or of opportunity.—Lindsey Blayney in the North American Review.

## THE REAL CAUSE

A young physician asked a nerve specialist just how a certain case should be handled.

The patient is depressed all the time. He gets very little sleep, is awake for hours at a time.

During the day his thoughts are apparently miles away from his work, and only by concentration for a few minutes at a time, is he able to hold his position at all.

He is very careful and cautious about his food, picking and choosing with the utmost concern, because he believes certain foods are injurious.

He is gradually losing weight and I'm in a quandary.

I've been all over him, have had an X-Ray taken of his teeth, have given him an X-Ray meal, have given him test meals, and can find no organic trouble whatever.

"What did you finally tell him?"

"I told him that there was nothing wrong, and just as soon as he forgot that he was sick he'd be all right."

"Well, you'll not be able to help him now, because if he believes he is sick, he is just as sick as if he were really sick."

The subsequent history of that patient is interesting.

He went to another physician who took a very keen interest in him, became very friendly, and I'm in a quandary.

Accordingly, he spent considerable time hearing all the various symptoms as they were outlined in great detail by the patient.

He suggested some simple treatment and requested the patient to return in a week.

He then spent about an hour hearing all about the symptoms again. Further simple treatment was outlined, and the patient requested to return in a week.

The physician then said, "I find you have some nervous disability and also some symptoms indicating a disturbance in digestion, and of the heart and circulation. After careful examination I find that your nervous ailment is causing the digestive and heart disturbance so you'd better tell who is pressing upon your mind so deeply."

The patient broke right down and told a story that was really a confession.

The physician was able to explain away this difficulty, and the various symptoms disappeared with it.

Negative qualities is a negative virtue. One of the reasons why Fiske's certified flavoring extracts are superior to those of some things or not used in them, is that he is good at his work.

## Well-Founded Exhortation

We command and exhort in the name of Jesus Christ.—II Thess. 3:12.

"I wish," wrote a man to me recently, "that we could hear less talk about what we ought to do—which most of us know already—and more about what and how to do it."

That is a wise word.

It is not difficult to deliver a general exhortation to right living.

It is not hard to point out the obvious sins and shortcomings of men.

It is quite another proposition to tell why and how to live rightly.

The minister or teacher who fails to set forth the reasons for right conduct or to connect his exhortations with the enabling power for that right conduct is only beating the air.

He may be getting personal satisfaction out of his activity, but he is not edifying others.

To my understanding of human life, there is but one reason and power sufficient to overcome all the positive dangers and active enemies of right conduct, and that is the Lord Jesus Christ.

In His life, His death, His resurrection

He gives the one clear answer to the

advice question that leads mankind

and grace the one moral power suf-

cient to transform human nature.

"But man, sweet, tender, even yet

A present help is He;

And truth has still His Olivet.

And love His Galilee."

Brotherhood.

G. Lee, Col. J. Tabor Lee and Mayor

## LAST REGISTRATION DAY

Seniors and All Others Who Have  
Been Unable to Enroll Previously  
Expected at High School Today.

All students who plan to attend the  
Oneonta High school the coming  
year should be registered some time  
today at the school building to avoid  
disappointment when school opens on  
Tuesday. Principal VanDeusen urges  
that parents notify him if any children  
who are unable to register in person  
expect accommodations. This applies  
to both resident and non-  
resident students.

The registration thus far, 460 in  
the three lowest classes, shows that  
complicated arrangements will be  
necessary, for the total number will  
certainly be in excess of 600.

Today is the regular day for sen-  
iors to register, and the offices will  
be open from 9 until 12 and from 1  
until 4 o'clock for this purpose and  
for the enrollment in any of the other  
classes.

The freshman class already has a  
registration of 223, the sophomore  
class of 135, and the junior class of  
about 100.

## STEALING MOTOMETERS

Alfred Jelomowski of West Laurens  
Caught in Act and Fined \$10.

Alfred Jelomowski of West Laurens,  
a cheesemaker, was fined \$10 and given a suspended sentence of  
60 days in the county jail when ar-  
raigned before Justice Murdoch on a  
charge of stealing a motometer from  
a car parked in front of the West  
End garage Wednesday evening. The  
fine has been paid and the young  
man has returned to work.

Jelomowski was caught by Messrs.  
Oliver and Alexander of the garage  
while in the act of taking a moto-  
meter from an Oakland car, and  
he was collared and taken to police  
headquarters to await arraignment  
before Justice Murdoch. The young  
man admitted implication in a num-  
ber of petty thefts and of at least one  
other motometer. Hence Justice Mur-  
doch felt that stern measures were  
called for.

## WATCH FOR HIDE QUOTATIONS

On and after September first and  
until further notice, we will publish  
prices we are paying for hides and  
skins in the Oneonta Star. These  
prices will be found reliable and all  
producers of hides and skins will find  
it to their advantage to read these  
quotations daily.

As in the past, we will continue to  
meet any reasonable competition,  
paying full market value for hides  
and skins delivered to our warehouse.

Our connections with large tanners  
and the fact that we handle from  
5,000 to 6,000 calf skins per month in  
season enables us to pay highest  
market prices at all times.

Miller Hide Co.,  
Oneonta, N. Y.

## A STEP FORWARD

Dr. Christensen, chiropractor, has  
closed his office until September 1st,  
while he is attending lectures at the  
Palmer school, Davenport, Ia. He will  
there have an opportunity to learn  
the last improvements in chiropractic,  
also familiarize himself with the  
workings of the neuro-calometer, a  
new scientific instrument he has  
bought; it is an instrument so sensi-  
tive, that it will register the slightest  
nerve-pressure, where, and how  
much. It will prove to the most skeptical  
person that chiropractic indeed  
"gets the sick people well!" Anyone  
desiring better health, phone 758, after  
September 1st, for an early appoint-  
ment, or you may have to wait for  
a long time, before I can accept it.

Hyrum Dempsey of Salt Lake City (in inset), whose son, Jack, is quite a well known character nowadays, may be getting along in years—but he has young pals. When his pugnacious son fought Harry Gibbons in Shelby, Mont., a year ago last July 4, Hyrum had a ring-side seat. And he wanted to look his best. So he stepped into a tailor shop and got a manicure. But that was just the beginning. Hyrum, who admits he is 67, fell in love with the manicurist, Little Dexter Blasingame (above), just 26. Now comes word of their marriage.

## LATEST VICTORY NOTES

Murders of Cossacks Intended as Reported in Columns of Nearly Everywhere.

Joseph Benner of Sidney has focused a system for utilizing the heat which goes to waste in open fireplaces and is arranging to begin the manufacture of his improved heater in that village.

A son, Leonard Rung, was born August 12 to Mr. and Mrs. Michael D. Rung of Delhi. They now have 11 living children.

There will be a meeting September 17 of the auxiliaries of the Episcopal church in the Archdeaconry of the Susquehanna, at St. Matthew's church in Unadilla.

The Borden creameries at Sidney Center and Youngs are each receiving less than 100 cans of milk daily. This is attributed to the low price of milk and the high price of feed, which have driven many farmers out of dairying.

The much mooted question as to the status of Anna Sabin in the Rothenberg murder case is definitely settled by an award in her favor of \$462, which is \$2.00 for every day that she was held as a material witness, and the Greene county treasurer is directed to pay her that amount. The refusal of her employer to deliver her clothing and personal effects to her at the time she was removed from Windham to the sheriff's residence at Catskill has resulted in a replevin action in the state of New Jersey, and the defendants will be required to either deliver them or pay their value. Among these effects is a lavaliere containing the only existing photographs of Anna's natural parents, whom she has never known.

Mrs. H. S. Vanaken of Grand Gorge is the owner of a valuable pullet which was hatched February 14, 1924, commenced laying July 1, laid 23 eggs missing only two days and laying two double yolked eggs from July 3 until July 27th inclusive. Now she is the mother of a flock of eight chicks which is quite a record for a pullet six months old at time of hatching chickens.

At the special school meeting at Delhi, to be held Sept. 15, a vote will be taken on appropriating \$30,000 for school purposes. This meeting is necessary because at the last meeting the names of the voters were not recorded on the ballot was taken.

The Clark F. Simmons post of the American Legion at Cooperstown is planning uniform decoration of Main street in that village for each of the 16 holidays of the year on which the flag is required to be displayed. Holes four inches from the curbing and at uniform distance from one another will be sunk in the cement sidewalk and each merchant will have a flag four by six feet and a staff 12 feet high. On holidays the merchant will place flag and staff in front of his place of business, the pole being in the cement. The cost for the outfit installed will be about \$3.50.

The Cobleskill baseball team plays Richmondville, league leaders, in the former place today. On Labor day they will play the return game in Richmondville.

While a Schenectady farm produce dealer was having his tank filled on Tuesday at the Loucks filling station in Cobleskill, the truck caught fire and over 200 broilers and hens, which were in the vehicle, were burned to death. The loss on truck and contents is estimated at \$2,000.

A pretty sight at East Branch on Wednesday was a line of 200 cars decorated with flags and containing about 100 grangers from Michigan and Ohio on their way to New York and Boston.

Definite announcement is made that the Kayser Silk mill at Sidney will commence work with increased number of employees on the day after Labor day. Many of the machines dismantled in other towns have been brought to Sidney and it is believed that some of them will be set up in the latter place.

A party of state engineers are looking over the road situation in Jefferson, and hope, which springs often if not eternal, again inspires citizens to believe that another year will see a state highway.

The recent bazaar of the Margaretville Methodist Episcopal church netted approximately \$625. Over 200 were served to chicken dinners and the goods at the different booths were entirely sold out.

# Master Improvement in a Matchless Car-

## Conquers Vibration

The Lanchester Balancer, a British invention that eliminates engine vibration by absorbing it at its source, is the added refinement that gives Willys-Knight a still higher degree of supremacy among motor cars of quality.

Dr. F. W. Lanchester, F. R. S., a British engineer of outstanding genius, de-

veloped the invention to perfect one of the most famous foreign cars. In bringing it to America, by special arrangement with the inventor, Willys-Knight cures the inherent vibration that long has been an universal annoyance to car owners.

## There is No Point of Vibration!

The new Balancer gives the final magic touch to Willys-Knight operation. Drive it all speeds; you never reach the "point of vibration", for there is no such point.

Perfect smoothness—perfect riding ease! And a sleeve-valve engine that improves with use! Willys-Knight advances still another step ahead of its field.

Now he wants to perform the feat in a huge rubber ball and is negotiating with three different manufacturers to provide the ball. Leach's daughter, Viola (upper right), threatens to cut off her luxuriant curls if her father persists in his intention to repeat the stunt.

## WEST KORTRIGHT CITIZEN

Life Long Resident Dies Friday—

Mourned by Many Friends.

West Davenport, Aug. 28.—James A. Mitchell, a well known and highly respected resident of West Kortright, died Friday, August 29, after a two weeks' illness. The cause of his death was uremic poisoning.

Mr. Mitchell, who was a farmer by profession, was born in West Kortright in March, 1868, and had always lived in that vicinity. He was a member of the United Presbyterian church at West Kortright and a zealous church worker, not confining his efforts to the work within the church alone but always willing to help people in case of need or sorrow. He taught a class in the Sunday school and was a trustee of the church.

The deceased was the son of David and Anna (Diana) Mitchell, the former of whom survives, though he is now 84 years old and has been ill since May. Besides the father, he is survived by three brothers: William Mitchell, who lives near West Kortright, and Samuel and Edward Mitchell who live at home; also by one sister, Mrs. Joseph Smith of Meredith. Several nieces and nephews survive, among whom is Miss Helen Mitchell of Oneonta.

The funeral will be held Monday, September 1, at the West Kortright church at 11 a. m. and Rev. R. B. Irwin of the United Presbyterian church of Davenport will officiate in the absence of his pastor, Rev. W. B. Kilpatrick. Burial will be in the family plot near the West Kortright church.

The annual field day of the E. C. society was held yesterday, with fitting ceremonial in Franklin. There was a large attendance, many members of the popular old society of the D. L. C. being present from a distance and joining in the day's festivities. Company G band of Oneonta was present and delighted all with the music in it which it provided. The festive parade at 10:30 afforded much amusement and later there were races and other sports.

An excellent cafeteria dinner was served at noon at the Masonic hall, and in the afternoon there was a base ball game. The competing teams were Roxbury and the local boys—the outlaws. The latter won by a score of 13 to 4.

The exercises of the day closed with a comedy drama "Aaron Slick of Pumpkin Creek," which was given by excellent home talent in Masonic hall.
